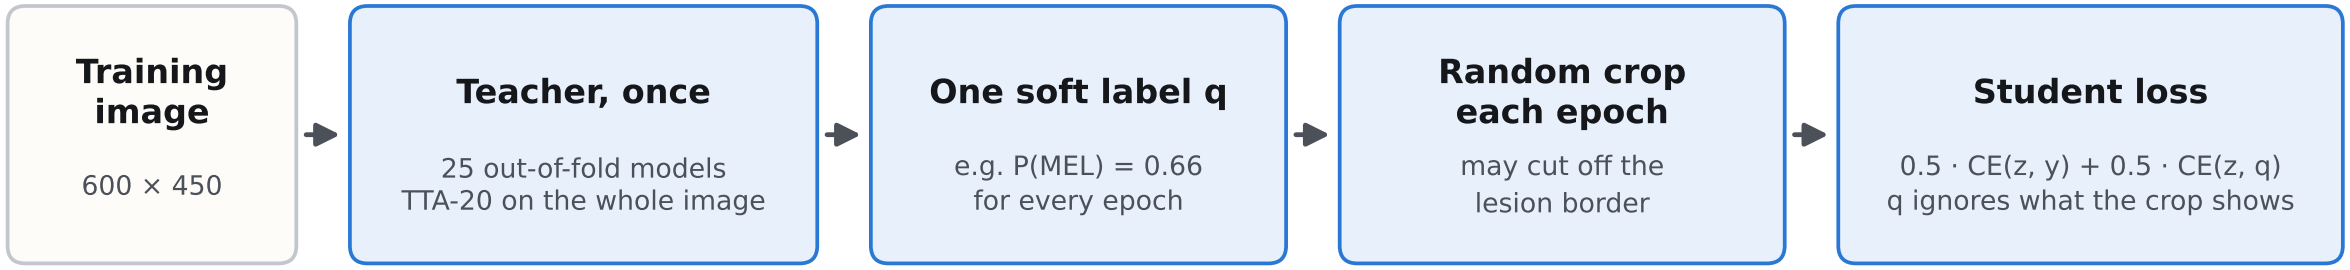
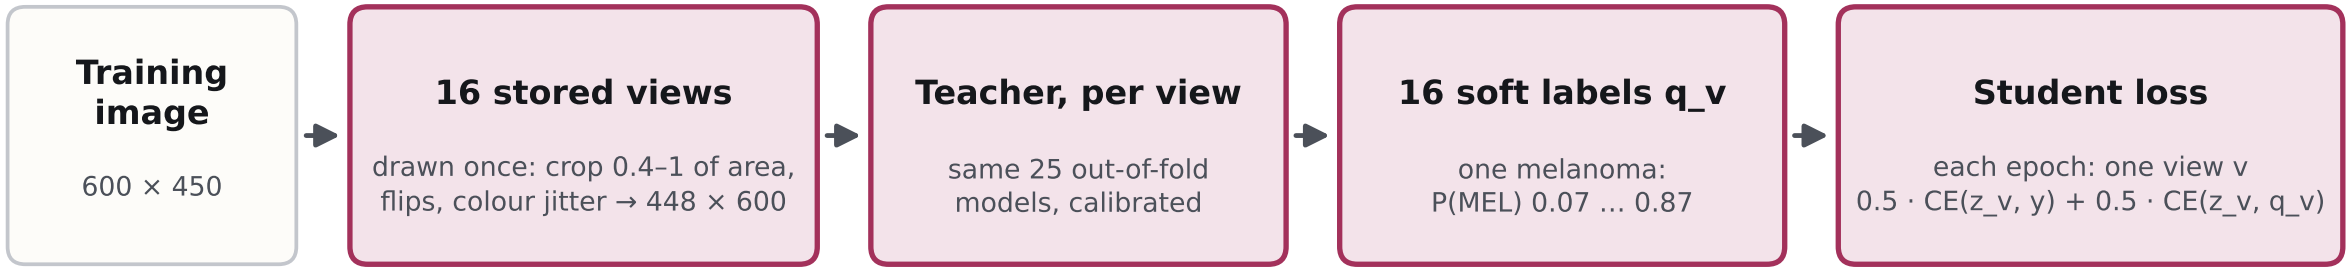
Fixed vs consistent distillation targets

ROUNDS 1–3: ONE FIXED LABEL PER IMAGE



ROUND 4: ONE LABEL PER VIEW (CONSISTENT)



Cost: one teacher pass over 160,240 views (about 25 GPU-minutes); student training time is unchanged.
Idea from Beyer et al., CVPR 2022, "Knowledge distillation: a good teacher is patient and consistent".

pretrained backbone (internals not shown) | new in Round 4 | fixed operation | data
